Clean - Page 76

GENERAL SKILLS

BLOCK

When a Both Down result is applied during a Block action, this player may choose to ignore it and not be Knocked Down, as described on page 67.

DAUNTLESS

When this player performs a Block action (on its own or as part of a Blitz action), if the nominated target has a higher Strength characteristic than this player before counting offensive or defensive assists but after applying any other modifiers, roll a D6 and add this player's Strength characteristic to the result. If the total is higher than the target's Strength characteristic, this player increases their Strength characteristic to be equal to that of the target of the Block action, before counting offensive or defensive assists, for the duration of this Block action.

If this player has another Skill that allows them to perform more than one Block action, such as Frenzy, they must make a Dauntless roll before each separate Block action is performed.

DIRTY PLAYER (+1)

When this player commits a Foul action, either the Armour roll or Injury roll made against the victim may be modified by the amount shown in brackets. This modifier may be applied after the roll has been made.

FEND

If this player is pushed back as the result of any block dice result being applied against them, they may choose to prevent the player that pushed them back from following-up. However, the player that pushed them back may continue to move as part of a Blitz action if they have Movement Allowance remaining or by Rushing.

This Skill cannot be used when this player is chain-pushed, against a player with the Ball & Chain trait or against a player with the Juggernaut skill that performed the Block action as part of a Blitz.
